ABOUT ME

Frontend Developer with 1+ year of freelance experience building scalable, production-ready web applications using React.js and the MERN stack. Strong expertise in REST API integration, JWT authentication, and responsive UI development. Passionate about writing clean, maintainable code and delivering performance-optimized user experiences.

SKILLS

- React.js
- JavaScript (ES6+)
- HTML5 & CSS3
- Tailwind CSS
- Node.js
- Express.js
- MongoDB
- REST API Integration
- JWT Authentication
- Responsive Web Design
- Git & GitHub

DESIGN TOOLS

- VS Code
- MongoDB Atlas
- Vercel
- Netlify
- Git

EDUCATION

Master of Computer Applications
(MCA)
SRM University
2024 – 2026

Bachelor of Commerce (B.Com)
Guru Nanak College
2021 – 2024

ACHIEVEMENTS

- Successfully delivered multiple freelance projects
- Built full-stack MERN application independently
- Production deployment experience with modern hosting platforms

EXPERIENCE

Present (2024 - 2026)

• FRONTEND DEVELOPER (FREELANCE)

- Designed and developed scalable React.js applications for multiple client projects across different domains.
- Built modular, reusable component-based architecture to ensure maintainability and scalability.
- Integrated RESTful APIs with proper error handling, loading states, and data validation.
- Implemented secure JWT-based authentication and protected routes.
- Optimized application performance using lazy loading, memoization, and efficient state management.
- Collaborated directly with clients to gather requirements and translate business logic into functional UI.
- Deployed and maintained production builds on Vercel and Netlify.
- Managed version control workflows using Git and GitHub.

PROJECTS

1. AI-Integrated Document-Based Learning Assistant (MERN Stack)

- AI-powered document chat, quiz & flashcard system
- JWT authentication + PDF upload
- MERN stack full implementation

2. Bulk Mail Automation System (MERN Stack)

- Email campaign platform with JWT authentication
- CSV bulk upload + Nodemailer integration
- Admin dashboard for campaign tracking

3. Medlad Tandoori

- Live: <https://medlad-tandoori.vercel.app/>
- Responsive React restaurant website

4. The Lost Yeti

- Live: <https://the-lost-yeti.vercel.app/>
- Interactive React frontend with reusable components
